## Ground Anchors & Earth Reinforcement

**Instant**  
**SCREW ANCHOR**

*The Instant Screw Anchor System is the fast, economical and permanent solution for earth reinforcement*

*The benefits of Instant Screw Piles include:-*

- Anchors can be installed during any weather conditions making them the logical choice in emergency situations where a fast earth reinforcement solution is required.
- A range of installation equipment means that hard to reach and difficult access sites are easily rectified.
- Rapid site establishment can be achieved to meet strict time line requirements often imposed in rail or road infrastructure projects.
- Anchors can be post tensioned to eliminate creep effects of unstable batters for maximum performance.

**The Instant Screw anchor is the ground anchor of the present... and the future**
